

ERP Readiness One-Day Audit

A rapid assessment of your organisation's readiness to deliver a successful ERP project

AUDIT BENEFITS

- ▶ An independent, expert view of any red flags that will potentially cause your ERP project to be unsuccessful
- ▶ Guidance on how to address any issues that may exist
- ▶ Delivery in a single day, with minimal time commitment required from your stakeholders
- ▶ Can be delivered remotely or on site

Each readiness audit will be led by a senior consultant with a minimum of 20 years of ERP project experience and will be informed by Lumenia's experience of over 250 ERP implementations.

➤ One-Day ERP Readiness Audit

ERP projects are notorious for running over-budget and failing to deliver the expected business benefits. Despite this, many organisations begin ERP projects without a clear understanding at senior management level of what a project will involve and with inadequate levels of due diligence around the potential ERP solution. Not surprisingly, many of these projects join the catalogue of failed implementations.

Based on our experience of over 250 ERP projects, we have identified a number of Red Flags that are indicators that a project may run into difficulty. The ERP Readiness Audit determines how many of these Red Flags are present in your organisation and provides guidance on how to deal with any that do exist. It is designed to be delivered remotely or on site in a single day with minimal time commitment from your stakeholders, ideally prior to the selection of an ERP solution.

HOW THE AUDIT WORKS

Activity	Time Commitment (per stakeholder)
Prior to the Audit	
We send a short on-line questionnaire for completion to an agreed list of senior stakeholders	10 minutes
On the day of the Audit	
Follow-up interview with a selection of the senior stakeholders	30 minutes
Interview with someone who can provide some background to the business and summarise the reasons for the planned ERP change and the work done to date on the project	90 minutes
Review of the findings and preparation of a PowerPoint presentation containing our conclusions	
Presentation to senior stakeholders of our views on how prepared the organisation is for ERP with recommendations on how to address any areas of concern	60 minutes
